About Me

Experienced and passionate Full Stack Developer thriving to build solid and scalable applications with smooth user experiences.

Education

MSc Finance
Internation University of Monaco
2020 - 2021

Master of Engineering
University of Quebec, Chicoutimi, Canada
2018 - 2019

Diplôme d'Ingénieur
ESILV, Paris, France
2012 - 2018

Abibac S
Lycee Alfred Kastler, Physics & Abitur 2.2
2009 - 2012

Skills

React, NextJs

Linux

HTML / CSS

Redux, Tailwind CSS

Docker

Typescript / Javascript

GoLang

PostgreSQL

Python

Nginx, Caddy

Languages

- English
- German
- French

Experience

Full Stack Developer
Oct 2023 – Now

German Bionic Systems, Augsburg, Germany

- Designed, developed, and maintained the German Bionic IO platform, powering advanced exoskeleton cloud services.
- Main Frontend developer for new features, while ensuring robust ongoing maintenance.
- Led key infrastructure improvements, including Frontend framework migration. (Woodpecker, Tailwind, Vite, Redux)

Technologies: React, Redux,Tailwind, Vite, Go, Docker, AWS, Javascript, Caddy

Frontend Developer
Jan 2023 - Sept 2023

Premium Aerotec (Airbus), Augsburg, Germany

- Contributed to the development of an AI-driven costing tool for aircraft parts, optimizing cost analysis and forecasting for parts in active use.
- Developed features and solutions to improve the web application.
- Legacy code handover, design modernization and deployment onto Airbus Infrastructure.
- Worked as a productive and impactful team member to design, code, test, report, and debug operations.

Technologies: React, Redux, Tailwind,, Next, FastAPI, Python, Linux, Javascript, Nginx

Software developer - Middle Office
July 2021 - Dec 2022

Société Générale, Frankfurt Am Main, Germany

- Automated, improved and managed internal processes.
- Drived the migration to a new data provider.
- Coordinated the instrument setups for new financial products (ETFs, Funds, Stocks, Derivatives).
- Ensured a proper data correlation from middle to front-office.

Technologies: VBA, Python, C#

Clark McEvoy

Full Stack Developer

Dear hiring manager, Juli 15th, 2025

I am writing to express my strong interest in the Full Stack Engineer position. With over four years of experience in Software engineering with a strong emphasis on Frontend development across the finance, aerospace, and robotics industries, I bring a blend of technical versatility, product sensitivity, and a passion for software.

I have contributed to the build of secure cloud platforms and high-performance interfaces in high-reliability environments, especially in aerospace, where I learned to apply rigorous quality and security standards. Startup experience made me highly versatile, often taking on architecture, frontend development, DevOps, prototyping, and customer feedback loops. This mix taught me to adapt quickly, learn fast, and deliver reliable end-to-end solutions under tight deadlines while collaborating effectively and making pragmatic technical decisions.

Outside of work, I am an avid endurance athlete dedicated to running, ultra-trail racing, and triathlon. Completing multiple ultras and finishing a full Ironman has shaped my mindset: I bring resilience, discipline, and long-term focus to everything I do. These traits carry naturally into how I tackle complex engineering challenges and contribute to team efforts.

Thank you very much for considering my application. I would welcome the opportunity to discuss how my technical background, methodical approach, and enthusiasm for impactful engineering can contribute to your company.

Best regards,

Clark
